Fenestration Canada Installer Certification Program - Launch

The Fenestration Canada Installer Certification Program has been developed by Fenestration Canada in conjunction with industry stakeholders to provide a level of assurance that an individual possesses the competencies deemed necessary to perform the job function of a fenestration installer. The certification is designed to complement Specifier requirements (e.g. Specifiers/Homeowners wishing to add certification as an installation requirement or companies wishing to add certification as a job prerequisite) and other accreditation programs offered by other regional/national verification bodies.

This certification has been developed in compliance with the ISO 17024 standard. ISO 17024 is the global benchmark for organizations operating personnel certification programs and outlines the methods and procedures required to ensure the objective and unbiased assessment of a candidate’s knowledge, skills, and abilities. Fenestration Canada has partnered with Building Professionals to offer this program to installers across Canada.

The program is set to launch on January 12, 2019. For further information about the program, please visit: <http://www.fenestrationcanada.ca/fenestration-canada-installer-certification-program>

About Fenestration Canada

Fenestration Canada is a 50-year-old association comprised of approximately 200 window and door manufacturers/fabricators, their suppliers, and related industry stakeholders. Our mission is to support our members across Canada by providing education, networking, and technical resources.
