FOR IMMEDIATE RELEASE

May 8, 2018

JELD-WEN Canada wins the ENERGY STAR[®] Manufacturer of the Year – Windows and Doors Award – for third consecutive year.

Vaughan, Ontario – For the third time in three years, JELD-WEN Canada has been recognized as the ENERGY STAR Manufacturer of the Year for the window and door category. After receiving the distinction in both 2016 and 2017, JELD-WEN is proud to continue to lead the way in energy efficiency.

The unique, climate-based challenges that are seen from coast-to-coast in this country demand windows and doors of a certain standard, and through relentless research and development, as well as a focused product improvement, JELD-WEN continues to lead the industry forward. They consider it a privilege to be able to provide Canadians with energy efficient windows and doors.

Designed to help consumers identify which products are the most energy efficient, ENERGY STAR[®] is a voluntary Canadian initiative in which JELD-WEN is proud to participate. JELD-WEN Canada is committed to continuously developing high-performing, energy efficient products for the Canadian consumer, and, year-over-year, significantly increases the number of ENERGY STAR[®] certified models and ENERGY STAR[®] certified products that they offer.

Canada's Minister of Natural Resources, the Honourable Jim Carr, said:

“Congratulations to JELD-WEN Canada for supporting and promoting ENERGY STAR certified products. Improving energy efficiency contributes first-hand to reducing greenhouse gas emissions, and JELD-WEN

Canada's efforts are making it easier for Canadians to save energy and money while protecting the planet. We thank you for your ongoing commitment to improving the availability of energy efficient products in Canada."

JELD-WEN's commitment to energy efficiency has seen them recognized by ENERGY STAR® with awards in 2009, 2010, 2012, 2016, and 2017. Regardless of the climate and conditions, whether it's freezing temperatures, excessive moisture, or intense winds, JELD-WEN products that bear the ENERGY STAR symbol are designed to stand the test of time.

Boasting four manufacturing facilities, two distribution centres, and three design centres, JELD-WEN Canada has a strong presence across the country, including sales in every province. Their company culture is one of integrity, with an unwavering commitment to providing high-quality ENERGY STAR® certified products to all of Canada.

About JELD-WEN

JELD-WEN (NYSE listed), founded in 1960, is one of the world's largest door and window manufacturers, operating 115 manufacturing facilities in 19 countries located primarily in North America, Europe and Australia. Headquartered in Charlotte, North Carolina, USA, JELD-WEN designs, produces and distributes an extensive range of interior and exterior doors, wood, vinyl and aluminum windows and related products for use in the new construction and repair and remodeling of residential homes and non-residential buildings. JELD-WEN is a recognized leader in manufacturing energy-efficient products and has been an ENERGY STAR® Partner since 1998. Our products are marketed globally under the JELD-WEN brand, along with several market-leading regional brands such as Swedoor® and DANA® in Europe and Corinthian®, Stegbar® and Trend® in Australia. About ENERGY STAR

ENERGY STAR Canada is a 17-year-long energy efficiency success story. The program is a voluntary partnership between the Government of Canada and 1,500+ organizations working to use our natural resources more wisely through greater energy efficiency. Behind each ENERGY STAR label is a product, home, building or industrial facility that is independently certified to use less energy and cause fewer of the emissions that contribute to climate change. ENERGY STAR is Canada's simple choice to save energy, save money and save our environment. For more information about ENERGY STAR, visit www.energystar.gc.ca
